

introducing you to
12 WOMEN
who want to share their
ABORTION STORIES
with you.

they think you should hear them.

the abortion diaries

a new documentary by penny lane

this film dispels the stigma of the common but little-discussed experience of abortion by presenting the stories of diverse women and the filmmaker's own "abortion diaries" to create an honest, intimate and at times surprisingly funny "dinner party" where you get to hear what women say behind closed doors about sex, love, work, motherhood, spirituality and their own bodies.
